Warning to Russia
The Soul and Beethoven
Beying Refinement
A 24-Foot Eye

READ THIS and wonder. Yesterday the Russian government sent five tons of gold through the streets of London on a truck with no armed men escorting it, not even two or three detectives. The gold, worth more than two and a half million dollars, traveled through London like ordinary pig iron.

It is only fair to tell Russia's government that it wouldn't be wise to try that in any big American city.

In New York yesterday you would see an armored car carrying \$100,000 and ahead of it two policemen on a motorcycle and a bullet-proof shield in front of them.

Sir Arthur Keith, head of the British Association for the Advancement of Science, says what we call mind, spirit or soul is a product of the material brain and dies with it.

Sir Oliver Lodge, a great scientist, but old, says: "The soul does not die with the body, the brain is an instrument used by the mind."

To say that the soul is a product of the mind is, according to Lodge, like calling Beethoven the product of a piano which interprets his music. Burn the piano, and you will not destroy Beethoven.

Duven has bought another picture at another price record. For the painting, "The Madonna and the Child," by Raphael, he gave Lady Deboragh \$275,000. If Britain wants it at cost it will say in England. If not, some American will gladly pay \$1,000,000 for it.

When you pay a million dollars for a picture you get a beautiful painting, and you feel you have purchased a good deal of respect—refinement and culture. That's comfort.

Garrett P. Berrin, able astronomer, says dirigibles will help astronomers, lifting giant telescopes high above earth into clear atmosphere.

There might be some difficulty keeping the giant "eye" steady.

At present, says Mr. Service, earth's biggest telescope is on Mt. Wilson, with a lens eight feet in diameter. Europe is working at 24-foot lens.

Such a lens, raised seven or eight miles above the earth, would bring objects on the moon to within eight miles of the human eye.

The Senate approved a bill that now goes to the President, cutting air mail charges 50 per cent. Postmaster-General New believes that lower prices will mean more business, better profit.

The Manhattan Elevated Railroad in New York city may have fare reduced from ten cents to five.

The bill also permits the post office to make 10-year mail-carrying contracts, which is desirable. It doesn't pay to build airplanes and train men for a four-year contract.

Centuries ago, boats sailed cautiously from Mediterranean ports, keeping in sight of land, having no compass.

Bold Phoenicians from the eastern end of the island sea, traders, that sold Solomon some of the wonderful things he put into his temple, sailed through. Please turn to Page 14, Column 1.

Entire Hub Police Force Investigated by Fuller

ACTION TO BE TAKEN DIRECT

A complete investigation of the Boston police department by Governor Fuller is under way. Fullerton and others are being questioned, and direct action by the State will be taken through a special grand jury or the Attorney-General's staff, is planned when the probe is finished, it was revealed today. The inquiry is being conducted by Gen. Alfred J. Folsom, commissioner of public safety and head of the State police, and it is by no means limited to current reports of graft and extortion and protection, but includes investigation of every phase of Boston Police Force.

Walsh Lauds Hearst For Public Service

By SENATOR THOMAS J. WALSH
Washington, May 12.—The Hearst papers are again rendering a public service of a high order by calling attention to the sinister character, not to speak of the magnitude, of the effort to warp public opinion, and particularly the minds of our youth, with respect to public utility problems, as revealed in the investigation being conducted by the Federal Trade Commission under order of the Senate.

WOMAN MURDERED IN BRANT ROCK COTTAGE; HUSBAND ARRESTED

Mrs. Mary A. Farrell of Milton was brutally slain in her cottage at Sunrise Beach, Brant Rock, Thursday night.

Her body was found in the cottage on Sixth rd. by Chief Preston of the Marshfield police. Thomas V. Farrell, husband of the murdered woman, is under arrest charged with attacking his wife.

Discovery of the body was made late Thursday night at early Friday and Farrell immediately placed under arrest. Every effort to suppress news of the slaying was made by the Marshfield police and not until late today, when state police were called in, did it become known outside Marshfield police circles.

Farrell and his wife had been living apart for some time. He made his home in Green Harbor, near Brant Rock, while she resided in Milton and made frequent trips to her cottage at the beach. According to police, Farrell phoned his wife in Milton and requested an opportunity to visit her. Whether an arrangement was made whereby he would go to the beach house Thursday night is not known.

The circumstances under which the body was found and those concerning the arrest of Farrell have been related beneath an air of mystery and secrecy with which the authorities have surrounded their investigation.

Mrs. Farrell is believed to have met her death about 11 o'clock Thursday night. The appearance of her body today led police to believe she was beaten with faith.

Chief Preston questioned Farrell immediately after the finding of the body, but did not immediately arrest him.

State Detective Lt. Albert Brouillette was called into the case and that, after a short time, investigation resulted in the further questioning of Farrell and his arrest.

He was arrested in Plymouth court on the charge of attacking his wife and held without bail for Monday.

COOLIDGE PASTOR'S SON HELD AS BURGLAR

Residents of Swampscott were amazed today when three boys, one of them son of the pastor of the church, were arrested as burglars.

The boys were Richard Tilton, 15, of Monument ave., son of Rev. Edward Tilton, rector of the Church of the Holy Name, Thomas Butler, 16, of Robinson st., son of Roger P. Butler, superintendent of the Swampscott postoffice, and George Tilton, 12, of Rockland st., son of a prominent resident of Swampscott.

The youths were arraigned in Lynn District Court on charges of breaking and entering and larceny in the nighttime, and their parents were notified to Wednesday. No bail was demanded.

Chief of Police Walter Davies said finger prints found on a cash register in one of the stores corresponded with those of young Tilton.

2 FORD FLIERS KILLED IN FREIGHT PLANE FALL

Detroit, May 12 (AP)—Two pilots of the Ford Motor Company were killed today when a trimotor freight plane crashed and caught fire on a landing at Detroit.

The boys were Richard Tilton, 15, of Monument ave., son of Rev. Edward Tilton, rector of the Church of the Holy Name, Thomas Butler, 16, of Robinson st., son of Roger P. Butler, superintendent of the Swampscott postoffice, and George Tilton, 12, of Rockland st., son of a prominent resident of Swampscott.

The youths were arraigned in Lynn District Court on charges of breaking and entering and larceny in the nighttime, and their parents were notified to Wednesday. No bail was demanded.

Chief of Police Walter Davies said finger prints found on a cash register in one of the stores corresponded with those of young Tilton.

The plane, an all-metal ship, crashed a head of freight. When it crashed a broken wing punctured the gasoline tank and the fuel was ignited.

It was more than an hour after the accident before the bodies of the victims, both burned, could be recovered.

What is this, a plague or a war?

No, it is only the record of the number of persons killed and wounded on the highways of the United States by automobiles in 1927.

If this were the toll of a plague the whole country would be in a panic.

If it were the result of war, well, there are hundreds of peace organizations functioning in the United States to stop war which has been once in a generation or less frequently.

PROBE DEATH MYSTERY OF WOMAN

police activities and every man on the force from top to bottom.

Conducted in secret for three days, the state's activity was revealed today when, as on previous days, witnesses slipped into the office of Gen. Foss for long periods of questioning by two inspectors specially assigned.

One of the significant features of the investigation is the fact, disclosed by attaches of the State departments concerned, that there is no link between this inquiry and that of District Attorney William J. Foley. It is a State investigation exclusively.

Investigation of a ring controlling liquor selling in the entire South Boston district with an iron hand, and involving an "alcohol king," at least two politicians and a business man, besides enmeshing policemen, is being made by the county authorities, in connection with their probe of extortion, protection and graft in the hub, it was also revealed today.

Evidence has been gathered in the peninsula district within the past few days by two investigators and catalogued by them for use by the district attorney and his staff, with especial attention being paid to the part supposed to have been played by policemen in the ring's operations.

It is likely that much of this evidence will be presented to a Grand Jury when the South End hotel "blackdown" case, now being submitted to the jurors, is ended.

Activity by the authorities has already resulted in a tongue-lashing of police sergeants by one of the captains of the two South Boston divisions.

ROOFTOP KING.

Inquiry into conditions is said to have resulted from information that the man referred to as the "alcohol king" has been a virtual monarch over more than 75 saloons and speakeasies in South Boston since for several years, besides bootlegging activities elsewhere.

Any person attempting to open a speakeasy would have to strive to get his supply of alcohol through the ring controlled by this man or he would be quickly put out of business by one means or another, it is said.

The means employed to accomplish this were sometimes blackmail, and sometimes the use of force with certain policemen to stage raids so often that the establishment proprietor could realize little profit from his endeavors, according to information received.

The liquor-dispensing places are reported to be regulated even more strictly by the ring than in the days before prohibition, and any proprietor who violated the rules of the ring or failed to supply the demand would be quickly disciplined.

This discipline is more than once case is said to have consisted in the dispatching of a patrol car to the place as control remains in the hands of the existing regime.

PROPRIETOR ESCAPES

One of the places doing the most profitable business is located on a main thoroughfare and has been so operating since the advent of prohibition. Only two cases of arrest have marred its career, and one of these ended in acquittal, the other in a small fine. In neither case was the real proprietor nabbed.

It is not easy to find a place in the front line at the bar in this disreputable busy Saturday evenings when five bartenders are at work, waiting for the most part one drink, which is sold almost exclusively.

JOHN EMERSON, WRITER, HAS THROAT OPERATION

London, May 12 (AP)—The Daily Express said today that John Emerson, American writer, had undergone an operation in Vienna for a recurrence of a throat trouble and that his wife, Anita Leon, remained in England, not knowing that he was to be performed.

Emerson went to Vienna a fortnight ago presumably on a holiday and when his wife did learn of the operation she left England to join him.

Saturday night in another speakeasy, according to investigators. The two politicians said to be involved in the ring are not named. One was the subject in an arrangement between speakeasies and the police, it is reported.

The alcohol supply is understood to have leaked out of a plant which has permits for storage of industrial alcohol under control of the biggest bootlegger now actively operating in Boston—the "alcohol king," whose associate in the trade is said to be a downtown business man.

Most of the speakeasies recently located by their captain are said to have been started similarly by Commissioner Wilson at the time of his investigation.

made this impossible. Instead, ropes were thrown out from the planes and they were hauled as close to the club wharf as possible and refueling with approximately 125 gallons to each plane was immediately begun, the gasoline being taken to the planes in five-gallon tanks. It was believed the refueling would be completed so the amphibians could start on their northward journey toward Greenland island again by 2 o'clock.

Mal-Gon, Fichtel of the army air corps, in charge of the expedition reported the planes had a successful flight to Portland, but were unable to make more than 12 miles an hour because of a 20-mile head wind. He said the planes would take on 15 gallons of fuel each and that as soon as this was done and lunch had been eaten the start from here would be made.

"We intend to hug the Maine coast from here," he said, "and go as far as we are able tonight, but because of the stiff head wind do not believe we can get farther than St. John, Newfoundland. From there we will push on towards Greenland island in the morning."

Captain R. C. Baker is flying the plane in which Gen. Fichtel is riding, and Lieut. W. R. Fairchild that carrying the Junker pilot, Frederick Meichner.

1000 GREET BIG EXPRESS PLANE AT AIRPORT

A crowd of 1000 today witnessed the arrival at the Boston airport of the "air pullman" of the Western Air Express Co., a big three-motored Fokker 12-passenger plane, on the first leg of its transcontinental flight from New York to San Francisco.

Carrying nine passengers, including J. G. Woolley, vice-president and traffic manager of the Western Air Express Co., and W. D. Longyear, vice-president of the Security Trust & Savings Bank of Los Angeles, the plane landed at 2:30 after an uneventful flight from New York.

The plane was greeted by a delegation of business men and aviation enthusiasts headed by James D. Donnan, vice-president of the First National Bank, acting chairman of the Boston Chamber of Commerce committee on aviation, and J. Winchell Danks, vice-president of the Old Colony Trust Co.

Others in the official party were Gardner H. Pike, acting chairman of the Municipal Air Board, representing the city; Maj. Charles H. Woolley, commanding officer of the Massachusetts National Guard squadron; Lieut. Donald G. Duke, commanding officer, Boston Airport; Capt. R. F. Raymond, Jr., representing the American Legion state committee on aviation, and Bernard Waldman, secretary, Boston Chapter, National Aeronautic Association.

The big ship, with its red fuselage and silver wings, made its appearance over the Airport at 2:30, and five army planes immediately took the air to welcome it.

SAY LINDY IS IN BIG AIR DEAL

New York, May 12 (AP)—The Evening Post says rumor has linked the name of Col. Lindbergh with the establishment of a system of airplane passenger routes through the country.

Reports are current and persistent, though unconfirmed, that it was to further this plan that Lindbergh recently made a series of hops, all shrouded in secrecy, that took him to landing fields from New York to California.

"All my plans are indefinite," Lindbergh said today when told of the reports, which linked the Ogden, Utah, and the Wright, Currier, and Hobart, and Mahony companies, and Edsel Ford as probable participating firms in the airway project.

had been found. They were based upon letters written by Prof. Lord, of 72 Rivers St., Boston, to Kluepfel after the latter had been helped in prison. One letter was quoted as follows:

HUSBAND AIDS SLAYER

"I deeply sympathize with you in your trouble. You are so more guilty than many other lovers. I regret that I am unable to help you materially, but I have many of my wife's letters which might help you clear yourself, if you need them they are at your disposal. Put your trust in God and all will be well."

At the time of Mrs. Vernet-Lord's death her husband was said to be a resident of Fall River, Mass. The Russian, who has been a refugee since the Red revolution in Russia, is the son of a former admiral in the Russian Imperial Navy. His father is said to be in San Francisco.

KLUEPFEL CONFESSED

Kluepfel made no effort to escape after the killing. When arrested he told the police he was the owner of the leveled dagger. He said he and Mrs. Vernet-Lord were in love with one another, but they had quarreled over some trivial matter and he contemplated suicide in her presence. When he drew the dagger on himself, the woman grasped with him and was slain during the struggle.

Kluepfel was a member of a cult known as "Lovers of Nature" which became involved with the police because the members refused to wear any clothing.

Mrs. Vernet-Lord, who was a talented musician, was the daughter of a physician at Cannes, France. She and Prof. Lord were married here in 1921, but could not agree and parted after living together for nearly three years. She remained here while her husband returned to the United States.

INQUEST LOOMS IN DEATH OF YOUTH IN GIRL'S ROOM

FATHER INSISTS SON DID NOT KILL SELF

An inquest into the death of John Savage, 23, of Northeast Harbor, Me., who died by shooting in the room of a Somerville girl five weeks ago, will probably be conducted as a result of action taken by Dist. Atty. Blumhert of Middlesex County. The district attorney suggested the inquest to the Somerville police chief and Judge Surveant of district court to satisfy the youth's father, John Savage, who came here a few days ago and conducted a personal investigation of his son's death, which had been officially called a suicide.

Young Savage was visiting Miss Mildred Secord of Holland at Somerville, and her family. Her father heard a noise in the night and, hastening to her room, found her slightly wounded by a bullet. As he was helping her from the room, he heard three shots and returned, found Savage dying. Certain circumstances convinced the elder Savage that it was not suicide, one being a statement secured to a Maine undertaker. That there was no powder burns on the body. Dist. Atty. Blumhert gives no indication that he questions the report of suicide.

ICE STORM HALTS FLIGHT ON FIRST POLAR FLIGHT

FLIERS FORCED BACK AS GALE PERILS CRAFT

BY GENERAL UMBERTO NOBILE
Commander in Chief of the Dirigible Italia, Preparing for Its Flight to the North Pole.

March 1928. In the United States and Canada, about 100,000 people, mostly Americans and Canadians, are watching the Italia, the dirigible which is to attempt to reach the North Pole.

King's Bay, Spitzbergen (By Radio from San Paolo Station), May 13.—We have returned our hangar at King's Bay after an unsuccessful attempt to reach Nichols II Island. The Italia entered the hangar at 4:50 yesterday afternoon. It was immediately impossible to think of doing otherwise. We had to return.

During nearly eight hours of adventurous flying, the Italia tried all the air roads of the Arctic in quest of one along which a gale against the elements might offer some probability of success.

We left at 1:45 a. m. with a much reduced crew. Even the reserve of fuel on board had been reduced considerably on the sudden rise in temperature from 12 degrees centigrade below zero Thursday to five this morning and to zero (freezing).

We are all quite well and extremely eager to start again as soon as possible. After the eight-hour ordeal, all the men on board, including the landmen, these

PHONE CHANGES PROPOSED TO CUT RATES

The New England Telephone & Telegraph Company today filed with the public utilities commission proposed new changes in the base rates of 17 cities and towns.

Under this rate, the rates are extended at irregular points so that newly developed sections will get the benefit of service without the mileage charge. Where this change is made the subscribers within each exchange, but still outside the base rate area, will have their mileage charges automatically reduced.

CITIES AFFECTED
The cities affected are Woburn, Melrose, Amesbury, Springfield, Lexington, Needham, Waltham, Weymouth, West Newton, Boston, Braintree, Cohasset, Randolph, Weymouth, Ashburnham, Fitchburg, Gardner.

William H. O'Brien of the telephone and telegraph division of the utilities commission said today that the number of subscribers affected and the amount saved will not be determined until the new survey is completed against the old in each individual case.

NEW EXCHANGES.
Two new telephone exchanges are to be established, one in Brighton to be named Algonquin, and the other at Forest Hills on Cape Cod. A third change is being discussed at Gloucester which is now part of the Nantuxet exchange.

If the latter is finally decided on, the heavy mileage charge now paid by subscribers in Gloucester will be eliminated and a toll of 10 cents to Nantuxet will be substituted.

SKETCH SHOWS GEN. NOBILE AND PRIEST IN SERVICE
Staff Artist Kolliker of the Boston Evening American here depicts the service by which Gen. Nobile and Fr. Gianfreschi, a Jesuit priest, who is chaplain of the dirigible Italia, will plant the cross at the North Pole in the gleam of the northern lights. The cross was made from a tree in the Vatican gardens at Rome and presented to the expedition by the Pope. On his first flight in the Arctic region the Italia was forced back to its base by severe weather. During the next two months General Nobile and his aide plan many expeditions to the Polar regions during which they hope to explore areas about which very little is known. It is expected they will make their flight to the North Pole at the first opportunity.

GET YOUR FURS OUT FOR COLD WEEK-END

"I see you're fixing up the fur-lined coat for summer storage," we usually remarked to the Weather Man today while calling upon him at the Federal Building. "Summer storage nothing," he replied. "I'm taking it out of the closet here to wear it home tonight."

WEAR IT HOME? What's the big idea?

In answer, the local expert pointed to an extensive cold wave, on its way extending eastward from the Rockies and gradually encroaching on the western border of New England.

"Cold weather hereabouts tonight," he asserted, "and the possibility of a run in June." We factious remarked.

"Yes, come to think of it, it is," the Weather Man responded, turning to his life history records, covering more than half a century.

"The last time the temperature in Boston dropped to anywhere near the freezing mark was on this date in 1857," he replied, "but since I came here from Nebraska, a few years ago I am not surprised at anything in New England weather forecasts."

So that leads to the official forecast for Greater Boston over the weekend:

Fair and cooler tonight, probably with frost; Sunday fair with slowly rising temperature, from northwest winds, diminishing tonight.

SOARS INTO ARCTIC STORMS

Photo shows Gen. Nobile's dirigible leaving Stolp, Germany, for the base at Spitzbergen, from which point the expedition is making voyages of discovery. On the attempt to reach Nicholas II Island, the elements proved contrary and the Italia returned to her hangar after eight hours' flight.

America's Golfers Hold Sport Calcium Today

GIANT STAR AS BOY. Andy Cohen, the Jewish keystone flash on the N. Y. Giants, is one of a large family. He is standing, fourth from the left, beside his grandfather, Louis Desarz. John McGraw's big home drawing card has changed a lot since this photo was snapped.

GENE ORATES AGAIN. Champion Gene Tunney, on left, was the main speaker at the 10th anniversary of the Institute of the Crippled and Blind. Hon. F. Trubee Davison, assistant secretary of war, spoke also. The champ got a great ovation.

ROUNDING THE BUOY.

One of the six metre yachts gets away at the gun, at Larchmont, L. I. This sport has plenty of danger and excitement attached.

LION TAMER. Walter Hagen drove the British Lion to his den once more at the Sandwich links. His two dazzling rounds of 72 won him his world's most historic golf crown. This is the third time that the Hag has copped the coveted title. Gene Sarazen, the stocky Italian, was runner-up to the greatest American pro. A \$15,000 job awaits the victor in the U. S.

FIGHTERS HAVE HEARTS. Jim Corbett, who took the heavyweight title away from John L. Sullivan in 1892, places a wreath on the grave of the Boston battler. Just a few minutes of memories. Then he "left him alone in his glory." Corbett, at 62, is yet as fast as a youngster. At present he is a stage star. And popular as ever.

FANCY DIVING IN RACE. Porphyrian and his rider dove into the open ditch in the Mayblossom Steeplechase at Lingfield, England. It is seldom that some of the contestants in these races escape a spill. The thrill of the jumps has a great hold on the English race followers. Steeplechasing is getting popular in the United States.

PUNCHERS PREPARE. Lightweight Champ Sammy Mandell, on left, faces Jimmy McLarnin. The title holder and the Lochinvar of the West will meet at New York on May 17. Both men are fast getting "in the pink." Mandell is working out at Orangeburgh in New York. McLarnin trains at Pompton Lakes, New Jersey. The fight should be a sixer.

SWINGING THE STICKS. University of Maryland and U. S. Naval Academy mixed it hard and fast in their lacrosse game at Annapolis. The Maryland twelve won, 3 to 2. Lacrosse is the only real American game, for the Indians were the first to play it. It has the speed of hockey and is rougher than football. The sport is fast gaining popularity throughout the country.

PETTING PATTY

PATTY'S IN A FINE FIX NOW!
A POLICEMAN SAW HER TRYING TO GET BACK INTO PETER'S LIBRARY. HE CLIMBED THE FIRE-ESCAPE AND ARRESTED HER. THE MAMA SHE WAS WEARING DIDN'T HELP ANY EITHER. PATTY DID A THING OR TWO TO THE POLICEMAN, THOUGH. SHE THREW HIS CAP ON TOP OF A PASSING AUTOMOBILE, REMOVED THREE LOVELY BRASS BUTTONS FROM HIS COAT, MUZZED HIS HAIR, TRIED TO PUSH HIM OFF THE ROOF, A COUPLE TIMES, AND PUT DARLING LITTLE BLUP SPOTS ON HIS SHINS. BRANDED BY A HAT

By LUCY LOWELL

WHAT is it that a woman, whose heart otherwise is filled with Christian charity—one who tries to give everybody a square deal, and who, in so far as she can, loves her neighbor as herself—will acquire some place, in some manner, a hat of the shape and about the size of a bathtub and keep this to wear to church?

You may object that one goes to church to hear, primarily, and that a view of the clergyman is not necessary to the uplift of the soul.

But this is not quite accurate; most people understand a speaker more easily and fully if they can see his face. At any rate, churchgoers surely have a right to decide for themselves whether they want a glimpse of their clergyman's face as he talks; they can close their eyes if they don't like his looks.

And how, I ask you, can they exercise this privilege if there is no hat about a square foot of hat sticking off their view of everything else?

Of course churchgoers are saved a lot of this by one of the few reasonable fashions to obtain in the past decade or so, the vogue for small, close-fitting, practically brimless hats.

But every now and then some fanatic, original or originalist, for some other obscure reason, on such a headpiece of the dare-devil, comes-around-one variety and, as I say, saves it for church-wearing.

Thoughtlessness at the bottom of it. If women will stop and consider a moment they won't do circus, but downright irritating things at the end.

A WIFE'S MEDITATIONS

By HELEN ROWLAND

Daughter, consider the life of a man who possesses a good wife, for all his days are smoother than the running of a New York City car, and his bedtime is calmer than a May afternoon.

Behold, he awakes in the morning and at his right hand is the cozier of all his life is his wife, and his breakfast is warm and his bath towels.

He droppeth his person upon the floor and flingeth his night garments to the winds. His shoes are as birds that fly to him from the remotest corners of the house and his collar button as a homing pigeon which cometh at his whistle.

Whensoever he desireth his breakfast is waiting, his newspaper bath at his elbow, his grapefruit with bread prepared and warmed, his eggs are salted and peppered, his coffee is pure and HOT.

And behold, when her lord returneth all in beauty and comfort and sweetness and light!

Then doth he greet her with a kiss and a sign of weariness, saying: "Lord, but I am tired for I have had a hard and anxious day, with only an hour's sleep and two hours' upon the links! But, what? my beloved, how dost thou get on?"

Yes, HOW dost thou get on in all the hours with me? But amuse thyself!"

Then doth she seek her mirror and message away the worry wrinkles and smudged hair with a sponge and myrrh and beauty cream and powder de ris for his coming.

She assumeth a gay smile of welcome and lighteth all the lamps and sooth to it that he take is prepared and the man upon the way and the salad dressed and waiting, and the vanilla hot and the ice cream cold.

And when her lord returneth all in beauty and comfort and sweetness and light!

Then doth she seek her mirror and message away the worry wrinkles and smudged hair with a sponge and myrrh and beauty cream and powder de ris for his coming.

She assumeth a gay smile of welcome and lighteth all the lamps and sooth to it that he take is prepared and the man upon the way and the salad dressed and waiting, and the vanilla hot and the ice cream cold.

And when her lord returneth all in beauty and comfort and sweetness and light!

Then doth he greet her with a kiss and a sign of weariness, saying: "Lord, but I am tired for I have had a hard and anxious day, with only an hour's sleep and two hours' upon the links! But, what? my beloved, how dost thou get on?"
